Sachin M

Cybersecurity & Penetration Testing

Coimbatore, India · madhusachin01@gmail.com · +91 9363865604 · LinkedIn · GitHub · Website

SUMMARY

Cybersecurity enthusiast specializing in penetration testing, vulnerability assessment, and ethical hacking. Experienced in web application security, CCTV/IoT system security, and OWASP Top 10 vulnerability research. Active bug bounty hunter with hands-on experience in real-world security testing and responsible disclosure. Strong foundation in Python-based automation tools and Linux-based security environments.

TECHNICAL SKILLS

Domains : Web Application Penetration Testing, Bug Bounty Hunting, OWASP Top 10, Network Security, IoT Security

Platforms : Web Applications, REST APIs, CCTV/IP Camera Systems, Linux-based Environments

Tools : Burp Suite, Nmap, Metasploit (basic), Wireshark, SQL, DBMS, Linux, Docker (basic), Git/GitHub

Languages : Python, C, JavaScript, HTML, CSS, SQL

PROFESSIONAL EXPERIENCE

Softsquare 2024

Cybersecurity & Penetration Testing Intern *Self-Driven*

- Conducted hands-on penetration testing and vulnerability assessment of web applications, CCTV cameras, and DVR systems.
- Developed a strong understanding of ethical hacking methodologies, OWASP Top 10 vulnerabilities, and responsible disclosure practices.
- Worked as Team Lead, coordinating field work, presentations, and website development activities.

PROJECTS

LOGFLUX - Evidence-Preserving Log Pipeline | Python, WASM, Docker | GitHub

- Contributed backend security, integrity, and APIs to a log pipeline preserving original bytes and supporting signed, human-reviewed parser adaptation.

PARALLAX - Offline Bitcoin Investigation Workbench | Python, DuckDB, ML | GitHub

- Offline Bitcoin investigation workbench with fused evidence graphs, explainable anomaly ranking, audit trails, and signed case dossiers.

PROJECT AXIOM - Security Configuration Auditor | Python, Docker, SSH | GitHub

- Audits Linux/container configurations through Docker or SSH and generates prioritized findings, Markdown/JSON reports, and a browser dashboard.

Impact - Change-Impact Graph Prototype | Python, SQLite | GitHub

- Local prototype traces code dependencies, supports review decisions, exports audit evidence, and simulates deployment and rollback.

Automated CCTV & DVR Vulnerability Assessment Tool | Python, Networking, Linux | 2025 | GitHub

- Led a team building a CCTV/DVR vulnerability assessment tool; handled algorithm design, 3D modeling, and project presentations.

IP Camera Security Monitoring & Threat Detection System | Python, IoT, Networking | 2024

- Analyzes IP-camera network traffic for suspicious access patterns; coordinated field work, website development, and presentations.

Web-Based Vulnerability Scanner (Beginner-Level) | Python, Flask, SQL | 2024

- Individual Python/Flask project focused on OWASP Top 10 research and testing automation, with CRUD operations and structured SQL storage.

EDUCATION

Rathinam Technical Campus 2025 – 2028
B.E in Computer and Communication Engineering | CGPA: 8.5 | Coimbatore, India

Dawn Matric Hr. Sec. School 2023 – 2024
HSC | 78%

ACHIEVEMENTS

- Selected for Smart India Hackathon 2025 for the NTRO Problem Statement.
- Active bug bounty hunter, including participation in the Spribe Games Bug Bounty Program.
- Core contributor to Guardian Sentinel, a security-focused surveillance and threat-monitoring project.
- Consistently reached final rounds in hackathons and pitch events using self-built projects.
- Applied penetration testing concepts across multiple competitive hackathons and security-driven events.

CERTIFICATIONS

Moreton Bay – Entrepreneurship and Innovation Virtual Program 2025
HackerRank – Problem Solving, C, Python, JavaScript, HTML & CSS 2022 – 2025
GE Aerospace – HR Analytics & HR Systems 2024
Great Learning – HR Database Management System 2024
Great Learning – Human Resources Management 2023
